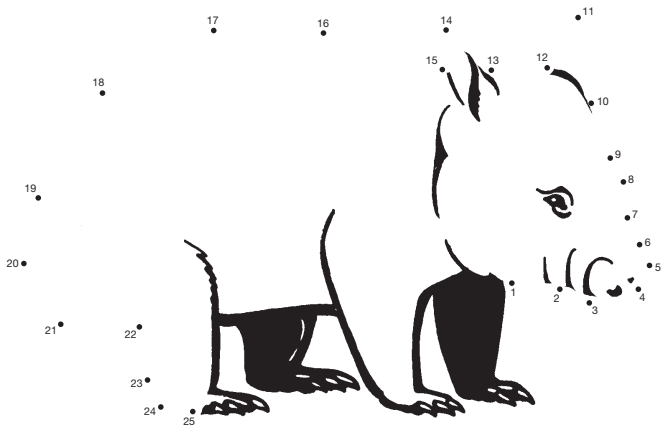
Kidz Biz

Can you work out the name of Perth Zoo's two Southern Hairy-nosed Wombats by filling in the missing letters of other Zoo animals shown here to the right?

_heetah
elep_ant
m_erkat
tige_
orang_tan
gib_on

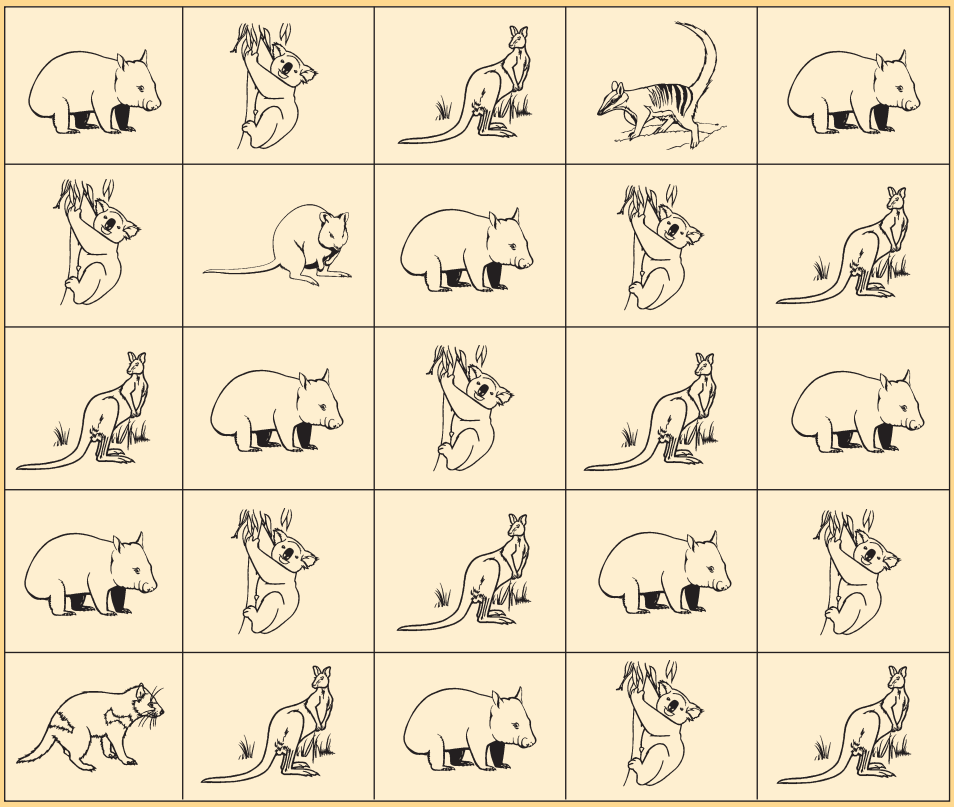
_ebra
p_nguin
em_
_nake

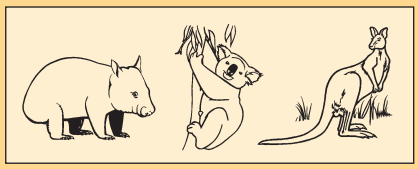


Can you connect the dots to finish the wombat? Colour it in!

Crazy Fact!

Unlike some other marsupials, wombats have a backward-facing pouch. This stops the pouch—and the young inside—from getting covered in soil while the mother digs her burrow.





How many times can you spot the above pattern down or across in this marsupial grid?

Can you spot and name all six marsupials that appear on the grid?

_____

_____

_____

_____

_____

_____

If you want to try to spot some real marsupials, why not go spotlighting after dark? For more information on participating in the Tiwest Night Stalk visit <www.perthzoo.wa.gov.au/nightstalk>.
