TIWEST

# Night Stalk

1 September - 16 October

Australia's biodiversity is unique and important. Do you know which animals live near you?

**We need your help!**

Get a group together and conduct a Tiwest Night Stalk – a national spotlight survey of animal species. It is very easy to conduct a survey in your local area and the information you collect will be used to compile an Australia wide animal database.

**Anyone can do it!**
